

STEPHENSON SOIL & WATER DISTRICT'S WELL WATER TESTING PROGRAM

Stephenson SWCD is pleased to be offering a well-water testing program again this year. Well water can be tested for nitrates, and metals.

As in previous years the program is organized as a drive which helps to keep the cost down. Kits will be available for sale at the SWCD office from **September 20 – September 24 & September 27.** Samples are to be taken on **Monday September 27 or the morning of Tuesday, September 28** and kits returned to the district office by **3:00 p.m. on Tuesday, September 28th** for immediate shipment to the testing laboratory.

COST FOR THE TESTS ARE AS FOLLOWS:

COMPONENTS	TESTS FOR:	COST
Nitrate Package	Tests for nitrate, nitrite, ammonia, chloride, sulfate, fluoride, soluble phosphorus, silica, and conductivity	\$30.00
Metals	Includes antimony, arsenic, barium, beryllium, cadmium, chromium, lead, selenium, aluminum, copper, iron, manganese, zinc, nickel, sodium, calcium, strontium, cobalt, magnesium, potassium, silica, and vanadium	\$80.00
**Bacteria	PurTest Bacteria self testing kit is available from the district. **Note: this is not part of the regular testing components; this is a home self test kit.	\$20.00

A confidential report of the test results will be mailed directly to you within 6-8 Weeks.
